AI AS INFRASTRUCTURE

I already run the operating system this role exists to teach data professionals to build.

Obsidian + Claude Code + MCP, daily. Custom prompt-driven operations (ingest, query, lint, wrap) across 570+ markdown files with persistent context loaded before every Claude interaction. Every output feeds the next one. The Second Brain Course below packages the same workflow so non-developers can build their own.

Raw source → Ingest → Wiki + index → Query → Action

Agent-based workflows · MCP layer · Persistent memory

SELECTED WORK

Demandbase, Graduate Capstone

JAN TO APR 2026

Motion-specific percentile scoring on 3,555 sales opportunities. Translated research into a stakeholder-ready value calculator and presented end-to-end.

3,555 OPPORTUNITIES **SQL** SCORING **AUC** VALIDATED

Second Brain Course

IN DEVELOPMENT · 9 MODULES

Coursera-style short-form curriculum teaching non-developers to build a persistent Second Brain on Claude Code. Safety-first onboarding with real CVE walkthroughs. Persona-segmented capstones for marketers, students, data pros, and vibe coders.

9 MODULES **4** PERSONAS **7 wk** ARC

Epicor Software, Marketing Intern

SUMMER 2025

Sole Brandwatch operator. Built the competitor intelligence and earned-media book from scratch with biweekly C-suite briefings. One workflow drove a +30% median engagement lift on LinkedIn.

+30% LINKEDIN LIFT **CCO** AUDIENCE **Solo** OPERATOR

treyleases-com.vercel.app

BUILT SOLO · PW: TROOT

Real estate lead-gen platform for my Tower Realty listings. Next.js, Mapbox, Vercel, live CSV pipeline. Built solo in a week of evenings, in production, real users.

500+ LISTINGS **1 wk** TO SHIP **Live** IN PRODUCTION

TECH & TOOLING

LANGUAGES	SQL, Python, R, HTML/CSS/JS	AI AGENTS	Claude Code (daily), Claude (web + mobile), Perplexity, Wispr Flow
BUILD / SHIP	React, Next.js, Vite, Mapbox, Vercel, Netlify, Git, terminal-native	MCP SERVERS	Paper Design, Chrome browser, Gmail, GCal, Google Drive, Notion, scheduled tasks
BI / ANALYTICS	Brandwatch, Meltwater, Google Analytics (GA4), Excel, Tableau	APIS USED	Follow Up Boss, Anthropic, Mapbox, Vercel
DESIGN / PROD	Paper Design, Canva, Obsidian, DaVinci Resolve, Canon EOS M50	THE VAULT	Obsidian + Claude, second brain across career, real estate, editorial, technical, personal

240+ WIKI PAGES IN OBSIDIAN **270+** OUTPUT BRIEFS

CLAUDE.md is the instruction set Claude reads at the start of every session: vault structure, page formats, the ingest, query, lint, and wrap operations, and how I want Claude to operate inside Obsidian. **Memory.md** is the live state file: who I am, what I'm working on, open actions, decisions made, reminders by domain. Together they make Claude operational inside Obsidian, not just available.
